

FALLS INTO GRATE; BADLY BURNED

Lady Has Nervous Attack—Narrow Escape From Horrible Death.

CHLOROFORMS MAN AND WIFE

Men Entered Cabin of Barge With Hope of Getting Large Sum of Money.

(Special to The Times-Dispatch.)
NORFOLK, VA., February 16.—Mrs. William D. Willard, 42, of the city, was found dead in her cabin of the barge, the result of falling in an open grate. She was found by the crew of the barge, and her body was recovered and placed in a coffin. The cause of her death was a nervous attack, which was caused by the discovery of the barge being on fire. The barge was found on the James River, and the fire was caused by a gas leak. The barge was owned by the Chesapeake and Potomac Rivers, and was being used to transport coal. The fire was caused by a gas leak, and the barge was found on the James River. The barge was owned by the Chesapeake and Potomac Rivers, and was being used to transport coal. The fire was caused by a gas leak, and the barge was found on the James River.

Mrs. Willard is burned about her hands, arms, shoulders, neck and neck. Chloroformed Man and Woman. Daring river thieves last night broke into the cabin of the Baltimore barge Columbia, chloroformed Captain Ricks and his wife, and ransacked the entire cabin, scattering things to the four corners thereof. The thieves were evidently seeking a large amount of money, drawn yesterday by the captain to pay stevedores who were loading his barge with lumber.

The money drawn had not been carried aboard the craft, and \$12 was all the cash secured by the thieves, but two watches and a ring belonged to the captain and Mrs. Ricks, and hearing their initials, were also stolen.

The captain and his wife were still under the influence of the chloroform administered by the thieves when members of the Columbia's crew broke into the cabin at 8 o'clock this morning and awakened them.

Holding Miller.
C. W. Miller, alias Mull Miller, is being held by the Norfolk police for the Washington, D. C., authorities, on a charge of embezzlement.

James F. Winham, of Washington, is the complainant against Miller, alleging that he gave Miller two horses to sell at a bazaar, Miller sold the horses and skipped the city without turning over the money to him, he further alleges.

BURGLARS AT WORK.

Butts Farmhouse Burns.

(Special to The Times-Dispatch.)
STONEY CREEK, VA., February 16.—The store of W. H. Mayes, one of our most prosperous merchants, was entered by burglars Thursday night, and his entire stock rifled. The thieves entered by prying the front door open and there is no clue as to the precise time as to the identity of the guilty parties. Every endeavor is being put forward by the authorities to apprehend the burglars.

The house on the Butts farm, belonging to Mr. T. H. Hartley, of this place, and occupied by Mr. Frank Spiers, was totally destroyed by fire this morning.

ACQUIT AMARLO.

Commissary Keeper Not Guilty of Murder of Italians.

(Special to The Times-Dispatch.)
CIATHAM, VA., February 16.—Fred. Amarlo, charged with the murder of Joe Patrelo, Maggie Sullivan and Lawrence Sullivan at a railroad camp near Motley's Station, in December, was to-night acquitted after a trial of more than two days. The jury was out less than five minutes, and the case was submitted without argument.

Amarlo operated a commissary at the camp, and when the killing was done he was the only man near the shanty in which the victims were found. Several empty bottles were found in the shanty which filled a revolver of Amarlo, and this, with other evidence of nearly circumstantial nature, resulted in his arrest. He is about forty-five years old, is married and has several children and bears a good reputation.

Shackelford Not to Run.

(Special to The Times-Dispatch.)
ORANGE, VA., February 16.—State Senator George S. Shackelford, who has been urged to enter the race for the Democratic nomination in the Eighth District, gave the following statement to your correspondent:

"It was my desire to make the race in the counties south of the Rappahannock did not put up another candidate, believing that my nomination would be acceptable to those people. Having received a letter from Hon. R. L. Gordon, of Louisa, frankly advising me of his candidacy, I am of the opinion that the labor and expense of a primary and the incidental neglect of my business is not justified by the outlook for my success. I will, therefore, not be in the fight."

NOTABLE LECTURE ON "STONEWALL" JACKSON

Much Interest Taken in Appearance of Colonel Edgar at the Y. M. C. A.

Thousands who followed Stonewall Jackson, and many more who have only read the biographies of his life, believe that he was the greatest genius for war this country has produced. Never before have we had an achievement so much studied, not only in the United States, but in Europe, where Henderson's life of him has been adopted as a text-book in the schools of England and Germany. Facts are being disclosed showing that this remarkable man, who suffered only one technical defect, which proved, indeed, a valuable strategic victory, advised strategic movements which, if adopted, would have doubtless led to important victories by which the war would have been shortened and Southern independence achieved.

Whether the address of Colonel Edgar, billed for to-morrow night at the Y. M. C. A., will discuss the aggressive policy and bold tactics suggested by Jackson in certain crises, has not been disclosed; but there is every assurance that his treatment of his inspiring theme is highly interesting and instructive.

A cultured gentleman who heard him at Woodstock two weeks ago wrote thus to a friend in Staunton: "I understand you are to have Colonel Edgar with you soon. Get all your people

out if possible, men and women. A treat is in store for you. Vivid description, graphic portraiture, polished diction, passages of lofty eloquence, elevated sentiment—all in rapid movement, charge upon your heart, absorbing attention and stirring your blood."

CASE GOES OVER.

Rodgers Will Be Held Until Others Come

Lewis Rodgers, the young white man who was arrested in Richmond some weeks ago, and who was directly the cause of the capture in New York of other alleged baggage thieves, was called in Police Court yesterday morning, but his case was continued indefinitely. He will be tried after the men and women who are now in custody in New York have been brought to the city.

Justice Crutcher refused to allow Rodgers bail in any sum that could be reached by the prisoner. The prisoner, who is represented by Mr. Harry Glenn, has been "clam-like" since his incarceration. He refuses to say whether or not he knows the persons arrested in New York.

MISS LEE SENDS GIFT TO VETERANS

Total for Reunion Now Nearing \$14,000 Mark—Much More Needed.

Beautifully speaking, yesterday was a glorious day for the ex-Confederates of this city, as the old soldiers succeeded in adding \$844 to their reunion fund, and thus brought the total in hand up to \$13,512.75. It is still necessary, however, for them to raise \$11,482.50 more, as their actual needs require \$25,000.

Perhaps the most appreciated of all the gifts was a check for \$100, which came from Miss Mary Custis Lee, the daughter of General Robert E. Lee, who is staying at the Jefferson Hotel. The check was enclosed in a letter headed Colonel John W. Gordon, the general chairman, by Attorney-General Anderson. It goes without saying that it was gratefully acknowledged.

TRUTH ABOUT PYRAMID.

J. Adam Bohnet Will Deliver a Discourse at Smithfield Hall.

At Smithfield Hall this evening at 7:45 o'clock, sharp, J. Adam Bohnet, V. D. M., of Pittsburgh, Pa., will give a discourse on the scientific as-

tronomical and religious phases of the great Pyramid of Giza, commonly known as "Cheops," and said to be a "miracle in stone." Its exterior measurements and angles, Mr. Bohnet says, teach the profoundest scientific truth; but the measurements and construction of the galleries and chambers of its interior tell the story of man's fall and salvation, of God's love and mercy, of Christ's death and resurrection—the same story in surprising detail that is found in the Bible.

It will be a surprise to many to learn that this immense structure is not of Egyptian origin; that it was not intended for use as a tomb, but in fact has never been used for anything but to treasure up wonderful teachings in its lines and dimensions.

The lecture will be given on the subject of "The Bible and the Pyramid," in which he will undertake to elucidate the hidden character of the Pyramid, the most difficult in the Bible to understand. The speaker promises to make it quite comprehensive to all present.

Arrangements have also been made for Mr. Bohnet to speak at Davidson's Hall, Seventh and Broad Streets at 7:30 o'clock, Tuesday night, on the subject of "The Bible and the Pyramid," in which he will undertake to elucidate the hidden character of the Pyramid, the most difficult in the Bible to understand. The speaker promises to make it quite comprehensive to all present.

Dr. McBryde has recently returned from an extended European trip, and has had rare opportunities to gather thoughts and inspiration from education and educational institutions in foreign lands.

City Treasurer J. B. Pace is using every precaution to prevent trouble to those making remittances to his office for the payment of gas bills by giving daily notice that all remittances for gas must reach the Treasurer's office within the five days prescribed by ordinance, or penalty of five per cent. will be added. That is to say, remittances mailed on the morning of the last day must reach his office before 3 o'clock of that day.
